DETAILED ACTION

Summary of changes in this action

1. The amendment has overcome the outstanding indefiniteness.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7-9, 10, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuno et al. (USPN 6,380,798). Mizuno et al. disclose, in Fig. 1, a circuit comprising: “a master controller (DC1, of Fig. 2, providing signal 103) operating responsive to an operation value VDDB1”); “a dynamic voltage supplier (101)”; “an adaptive body biaseer (102)”; and “a plurality of computing devices (100)”, all connected and operating similarly as recited by Applicant.

Examiner has fully considered Applicant’s remarks for the above rejection and has not found them to be persuasive. Applicant argues concerning the language reciting “a plurality of computing devices, each of the computing devices having one of a plurality of threshold voltages”. Examiner firstly contends that inverters such as shown in Mizuno et al. would be reasonably considered to be “computing devices”. Secondly, since this language does not expressly state that “each of the computing devices” has a respective “threshold voltage” or that the voltages are distinct, this language can be interpreted as having the same “threshold voltage”.

Art Unit: 2816

In other words, “each” of them receives the same “one” of the “plurality”. Thus, the rejections are hereby maintained.

Claims 2-6 and 11-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
